

RHINO KOMPACT

BATTERY PACK WITH INTEGRATED CHARGER

RHINO KOMPACT battery packs are designed to offer superior performance the OEM counterparts offered by other manufacturers thanks to its tubular cell technology and its high frequency charger guaranteeing an optimal and quick charge. We offer two standard models that fit most applications, but we can also design custom models for any sizes available in the current market.

FEATURES

- ✓ Tubular technology in BCI cells
- ✓ Lead/acid or gel cells
- ✓ Higher capacity
- ✓ Minimum water consumption
- ✓ Superior durability
- ✓ High resistance to vibrations
- ✓ Quicker charging time
- ✓ Better heat resistance
- ✓ Easy maintenance
- ✓ Bolted posts available
- ✓ High frequency integrated charger
- ✓ Optional DIN and BS format

CHARGER AND OPTIONS

CONVENTIONAL CHARGE

Each RHINO KOMPACT comes with a PHF-HD3 high frequency charger. They are programmed for optimal performance according to the battery they are matched with. For better performance and extended battery life, we offer the following options: automatic battery watering systems and / or battery modules for data collection with included temperature probe.

MODEL	VOLTAGE / CAPACITY	DOUGLAS MODEL REFERENCE	DIMENSIONS (W x D x H IN)	MAINTENANCE FREE	WEIGHT (LBS)
12-2PZVB142	24V / 142Ah	503554DL-SBKP 505668DL-SBKN	24.5 x 8.38 x 23	YES	168
